A Bill No. 283, certified by the committee of the third division, for £39 sterl. was read, and not being sufficiently explicit, was recommitted.

RESOLVED,

On the motion of Mr. Winstanley and Hugh Bowen, Esq; that henceforward no more than three-half-pence per foot be paid for relaying old flagging or curbing.

The

The committee of the second division reported on the memorial of John Godley, Esq; referred to them, that having consulted with the surveyor, they are of opinion, that if the bottom of Sackville street (which is lower than the general line of the street) was raised, it would effectually carry off the water, the channel on the east side of Drogheda street having being kept as low as possible for that purpose,—that they examined the cess pool in Britain street, and will relieve the inhabitants in respect thereto soon as possible. They further reported, that two of their carters being at work under their orders, were assaulted by John Keating and son, that the carters have sworn examinations against them, and they request the board will order them to be prosecuted.

RESOLVED,

On the motion of Hugh Bowen, Esq; and Mr. Winstanley, that the corporation do agree with that part of the report relative to Sackville street.

RESOLVED,

On the motion of Mr. Winstanley and Mr. Leet, that John Keating and his son be summoned to attend on Friday next.

The committee of the third division reported, that there are several Waste Grounds which remain unvalued for the collection of the tax; that they recommend to have them valued soon as possible, as there are large sums due thereon.

RESOLVED,

On the motion of Mr. Winstanley and Mr. Meyler, that said report be agreed to, and that the order be made general for the other divisions also.

The said committee reported on the letter received from the Bursar of Trinity College, that they are of opinion, that by continuing the line of footway from Nassau street to the College, (which they recommend to be done the ensuing season) the evil complained of will be redressed.

RESOLVED,

On the motion of Mr. Meyler and Mr. Leet, that said report be agreed to.

The

The said committee reported on the memorial of Thomas Bell, that they recommend the request be granted, as the expense will not exceed ten shillings.

RESOLVED,

On the motion of Mr. Meyler and Mr. Leet, that the corporation do agree with said report.

The said committee reported on the memorial of Isaac Newton, that they are of opinion, if he will take away his pallisades and lessen the present projection of his windows three inches, that he may be permitted to finish them.

The said committee reported on the memorial of Thomas Truelock, that they think they ought to grant the prayer of his petition, the work when finished to be measured and examined by the surveyor, and that he do report the state of the work before the money is paid.

RESOLVED,

On the motion of Mr. Binns and Mr. Winstanley, that the consideration of said report be postponed to Friday next.

The following report of the supervisor of the said third division, with the report of the divisional committee thereupon, was read:—"That pursuant to order he has perambulated said division, and is opinion that the following are the most necessary works for the ensuing season. These following directly were ordered last year, but could not be overtaken.

Copengiers lane to be paved.—Cecelia street is paved, but the footway is to be finished: I make bold to recommend it to be continued to join the footway in Temple lane near Temple bar.

Palace street, a footway on the east side, and to be new paved.

The east side of Stephen's green, the footway to be finished, and to repair the carriage pavement.

The following he thinks the most eligible to be done next: to finish the curbing of Kildare street.—To curb French street and Mercers street, repair the carriage way of French street, and new-moddle and pave Mercer street.—To new-moddle the footways of Dawson street, either by mountain stone, or by adding some new black flags to those there already, and to curb what is wanted with mountain stone, and a small repair to the carriage way. — To continue the footway by a line of curb from Nassau street to Trinity College, to pave within it, and to new pave that
part

part of the carriage way of Grafton street.—To finish the curbing of Clare street. N. B. It is flagged. — Suffolk street to be curbed and paved when the old houses are taken down. — Merrion street, and the south and west sides of Stephen's Green, want footways.—The following Street to be paved only, Temple bar, with Arklow stone or otherways. — Fleet street from Prices lane to Temple bar, Astons quay from Prices lane to Bedford row, Anglesea street, Prices lane, part of College street, Leacy's lane, and south end of Merrion row, to be new paved.

That part of Harcourt street in this division will require to be graveled or new paved.

Aungier street, York street, south end of Grafton street, north side of Stephen's green, Leeson's street, St. Andrew street, Trinity street, east end of Fleet street, Lazor's hill or Townsend street, will require a repair, one with the other, of about eight pounds each.

Nassau street, Harcourt place, Park street, Merrion street, Cusse street, William street, Lee's lane, Sycamore alley, will require a repair of about two pounds each.

If the temporary work was proceeded on, as soon as the season will admit, it will be saving.

The committee having ordered their supervisor to make his report of the works necessary for the ensuing season, which being laid before them, they approve of the same, and do recommend them to the board for their approbation.

And the committee, in order to expedite the work for the ensuing season, and the better to proceed with the same early in the year, request that the board will grant leave to this committee to advertise for materials, in order to begin as soon as the season in the month of March will admit, as they have found from experience, that signing the contract so late as the latter end of May, has been productive of continuing the works to the months of November and December, at a very extraordinary expense.

The committee of the said third division reported on the memorial of John Sharman, that they are of opinion the landing step at his door ought to be taken away.

RESOLVED,

On the motion of Mr. Meyler and Mr. Winstanley, that the corporation do agree with said report.

The

The supervisor of the second division reported, that he received from Ald. Geale £83 10, fines on scavengers, which he paid over to the treasurer,—and there is £100 still due on said account.

The supervisor of the fifth division reported, that there is a great quantity of lime rubbish lying in Cook street and School-house lane, and he cannot find the people who left it there.

A memorial of William Meakins was presented by Mr. Winstanley, setting forth, that he purchased horses and carts, being encouraged thereto by the commissioner's advertisement, for the purpose of cleaning the streets, which he did under the order of the Lord Mayor or supervisors only;—that there is upwards of £50 due to him;—that Ald. Geale promised to pay him after the Quarter Assembly, and since has positively refused paying him, although he believes every other demand for scavenging is paid; that his carts are large and drawn by two horses; wherefore he cannot suggest any reason why he should not be paid, as the only objection he is informed ever was made was on account of the carts being small,—and praying relief.

RESOLVED,

On the motion of Mr. Winstanley and Mr. Smith, that said memorial be considered on Friday next.

The following motion was made by Mr. Binns and Mr. Manders, to be considered on Friday next the first business after the bills, That the resolution of the 14th December last, "That this board will not issue debentures till after the 24th June next, except only for such sum or sums of money as were then actually paid to the treasurer, pursuant to the advertisement in the news papers; that said advertisement be discontinued, and that the treasurer be acquainted not to receive any more money as subscriptions to the funds of this corporation till further orders," be rescinded: it being but just that the commissioners should give to the persons having demands on this corporation such security as the act of parliament enables them to give the said creditors.

The

Fourth Division. Messrs. Francis Minchin, Thomas Roughley, David Peter, James Marsh, Wm. White, Wm. Pike.

Fifth Division. Mr. William Gregg.

The committee of the first division reported on Bill, No. 206, for £5 4 6, referred to them, that they strictly examined the same before they certified it, and think it just, and that as the person was employed by the supervisor, they think it ought to be paid.

And the board having considered the said bill.

RESOLVED UNANIMOUSLY,

On the motion of Thos. Kingsbury and Ham. Stewart, Esqrs. that said bill, being part of the charge of filling stuff brought to Arbour hill, so frequently disapproved of by this board, be rejected.

The committee of the second division reported upon a memorial of Lau. Donnelley, their clerk, that he deserves to be paid for

for his extraordinary labour and attention, as pay-clerk and accountant, £25 per annum, from the time of opening the pit in Mabbot-street, and they recommend the same. And the said memorial being read, set forth, that there are a far greater number of persons employed in the division than formerly,—that he has 60 different persons to settle with every week, and to keep accounts, which employ his time frequently to late and unusual hours,—that there has been upwards of 32,000 cart-loads of gravel, &c. taken out of the gravel pit, of which he kept account, by having copies of all the weekly bills in the books,—that he became security for money to get the people credit to whom money was due, when there was not any in fund to pay the bills,—that on account of this pit, he apprehends, there is a saving of near £1000 to the division,—that his apartments are frequently crowded with the people with whom he has business to transact, and that his business requires more labour, time, and attention, than is necessary in the other six divisions; and praying for such recompence as may seem meet.

RESOLVED,

On the motion of Thomas Kingsbury, Esq; and Mr. Turner, that the consideration of said report be adjourned till this day fortnight.

Mr. Gladwell acquainted the board, that he applied pursuant to order to the last quarter assembly, for £300, in full for composition for paving, &c. to 12th Decem. last, and that the same was granted, and a warrant issued for payment in favour of Mr. Finlay, on the City-treasurer, and that this, together with the former composition money, remained for the order of the board, to be apportioned to the respective divisions.

He also reported an account of money received by Mr. Finlay for subscription, previous to the 14th of December last, for which debentures are not sealed, amounting to £1200.

The supervisor of the second division reported, that there is a jet-out window erected in Henry street, opposite Moore street, which projects 10 inches,—that the house lies farther back than the houses on each side, and that those houses have projecting windows of a long standing.

RESOLVED,

On the motion of Thomas Kingsbury and James Robinson, Esqrs. that said report be referred to the divisional committee.

The

The supervisor of the third division reported, that he went to Euface street with two carpenters and a labourer to take down the jet-out window there ; that the proprietor and others hindered and prevented his taking down the same, unless he would engage to repair and make good any damage which might be occasioned thereby, and praying instructions.—He also reported, that a jet-out window was erected at No. 20, in Duke street, this week, and he summoned the persons before a magistrate.

RESOLVED,

On the motion of T. Kingsbury and Nath Cavanagh, Esqrs. that it be recommended to the committee of the third division, to remove John Shea from his office of supervisor, for having repeatedly disobeyed the orders of this board.

ORDERED,

On the motion of Ald. Horan and Mr. Kingsbury, that the jet-out window erected in Duke street be removed.

The committee of the sixth division reported, that there is a balance due to Matt. Perry, of £19 0 2, on account, but they think it proper to mention what fell from the surveyor, respecting the work done by him. " That it was as well done as most of that sort in the city of Dublin, and only a few bad stones to be repaired, and that though the stones and materials are good, the workmanship is not as good as it ought to be, and he particularly said, the stones were not as well squared in the mountains as they used formerly to be."

ORDERED,

On the motion of Thomas Kingsbury and Ham. Stewart, Esqrs. that said bill do lie on the table for future consideration.

The board having considered the motion to rescind the order, " That this board will not issue debentures till after the 24th June next, except only for such sum or sums of money as were then actually paid to the treasurer, pursuant to the advertisement in the news papers ; that said advertisement be discontinued, and that the treasurer be acquainted not to receive any more money as subscription to the funds of this corporation till further orders : " it being but just that the commissioners should give to the persons having demands on them, such security as the act of parliament enables them to give their creditors.

A motion

(47)
A motion was made, that the motion for rescinding the said order be discharged. And the question being put, the Ayes and Noes were equal, and the chairman determined in favour of the Ayes.

The report of the committee of the third division on the memorial of Thomas Truelock, being read.

RESOLVED,

On the motion of Ham. Stewart and Thos. Kingsbury, Esqrs. that the corporation disagree with the said report.

RESOLVED,

That this board will, on the next meeting, issue a summons to the City-treasurer, (if he does not by that time settle with Mr. Meakins for scavengers fines) to hear and determine the complaint, and why he refuses to pay the same.

The corporation having proceeded to take into consideration the memorial of Richard Moland, the same was read,

Mr. Gladwell acquainted the board, that there was not any application made to the commissioners till the present, for redress or compensation by Mr. Moland or his agent, although his memorial states or implies that there was.

RESOLVED,

On the motion of Thos. Kingsbury, Esq; and Mr. Turner, that the corporation will, on the next meeting, re-consider the order of the 22d Sept. 1780. empowering the supervisor to raise gravel, &c. in the field belonging to Counsellor Moland, and appointing the price or rate to be allowed for the same, agreeable to the power vested in this board by act of parliament.— And take said memorial into further consideration.

ORDERED,

On the motion of Mr. Winstanley and Ham. Stewart, Esqr. that the supervisor of the second division do, against the next meeting of this board, report the number of square-yards of paving done therein, and measurements of streets and places shingled since he began to use stones, gravel, or shingles, raised and taken from the gravel-pit opened in Mr. Moland's ground.

RESOLVED UNANIMOUSLY,

ON the motion of Mr. Binns and Mr. Worthington, that a petition be presented to the House of Commons, against the heads of a bill now depending before them for paving and repairing the Streets, &c. of this city; as the said heads of a bill contain most unjust charges without proof against the members of this board—and lay an additional tax without limitation upon the inhabitants of this city.

RESOLVED UNANIMOUSLY,

On the motion of Mr. Binns, and Mr. Benjamin Smith, that a committee, consisting of the members present, or any five of them, do prepare the said petition, and that the board be summoned to meet on Monday next, the 4th of March, at twelve o'clock, to affix the seal of the corporation thereto.— And that the said committee be empowered to direct the law-agent in the choice of council, in opposition to the said heads of a bill, and all other matters respecting the support of the said petition; and that the petition, when sealed, be delivered to our representatives in parliament, to be by them presented to the House of Commons.

AT A MEETING OF THE
Corporation for Paving the Streets of
D U B L I N,

P R E S E N T,

Eighteen COMMISSIONERS.

W. WORTHINGTON, Esq; in the Chair.

MR. William Glascock by order of the committee appointed to prepare a petition to the honourable the House of Commons, against the heads of a bill for paving the streets, &c. of this city, at present depending in parliament attended with the same, drawn in form for said purpose,—which was as follows :

To the Right Honourable and Honourable the Knights, Citizens, and Burgesses, in Parliament assembled,

The Petition of the Commissioners for Paving the Streets of Dublin,

Most humbly sheweth,

THAT your petitioners, by two several acts of parliament, were incorporated for the purpose of paving, flagging, and removing nuisances and obstructions in the city of Dublin.

That your petitioners have made very considerable progress in that business, and have much improved most of the streets of this metropolis.

That

That we observe, with concern, heads of a bill have been lately introduced into this honourable house, for the declared purpose of dissolving this Corporation, and creating a new one, in which your petitioners, acting under the authority of the legislature, and the solemn obligation of an oath, are charged with having fraudulently embezzled the revenues intrusted to them.

That the said heads of a bill do also direct a new additional tax, termed a special rate to be levied upon all the citizens for the purpose of paying the expence of passing said act, and of prosecuting your petitioners by suits at law or in equity for frauds, breaches of trust, and embezzling of the fund committed to their management.

Your petitioners beg leave to represent to this honourable house, that they feel most sensibly the injury intended to their reputation by those unjust charges, which they conceive are unprecedented, not being justified by any inquiry or examination, nor by the report of the committee of this honourable house, appointed to enquire into the state of the paving funds.

We also beg leave to observe, that if the whole of the evidence given upon oath before the said committee had been taken down, so as to appear upon their report, your petitioners are fully convinced they would have been thereby justified and freed from any shadow of those severe charges.

That as your petitioners have, without fee or reward, taken much trouble in the execution of the paving acts, we therefore pray that we may, in our own justification, be heard by ourselves or own council, against the said heads of a bill.

Given under the seal of the corporation, and dated this of March, 1782, at a general meeting.

And the said petition being read, paragraph by paragraph, was agreed to the third and fourth paragraphs unanimously.

RESOLVED,

(One dissenting voice only) on the motion of Henry Howison, Esq; and Mr. Benj. Smith, that said petition be approved of, and do pass under the seal of this corporation.

The

The key-keepers having attended, the box wherein the corporation seal is deposited was opened, and the same was affixed to the said petition, which was passed as the act and deed of the corporation. After which the seal was again locked up, and the box committed to the care of the treasurer.

ORDERED,

On the motion of Henry Howison, Esq; and Mr. Tandy, that Mr. Wm. Glascock do wait on one of the representatives in parliament of this city, to request, in the name of this board, that they will present said petition.

ORDERED,

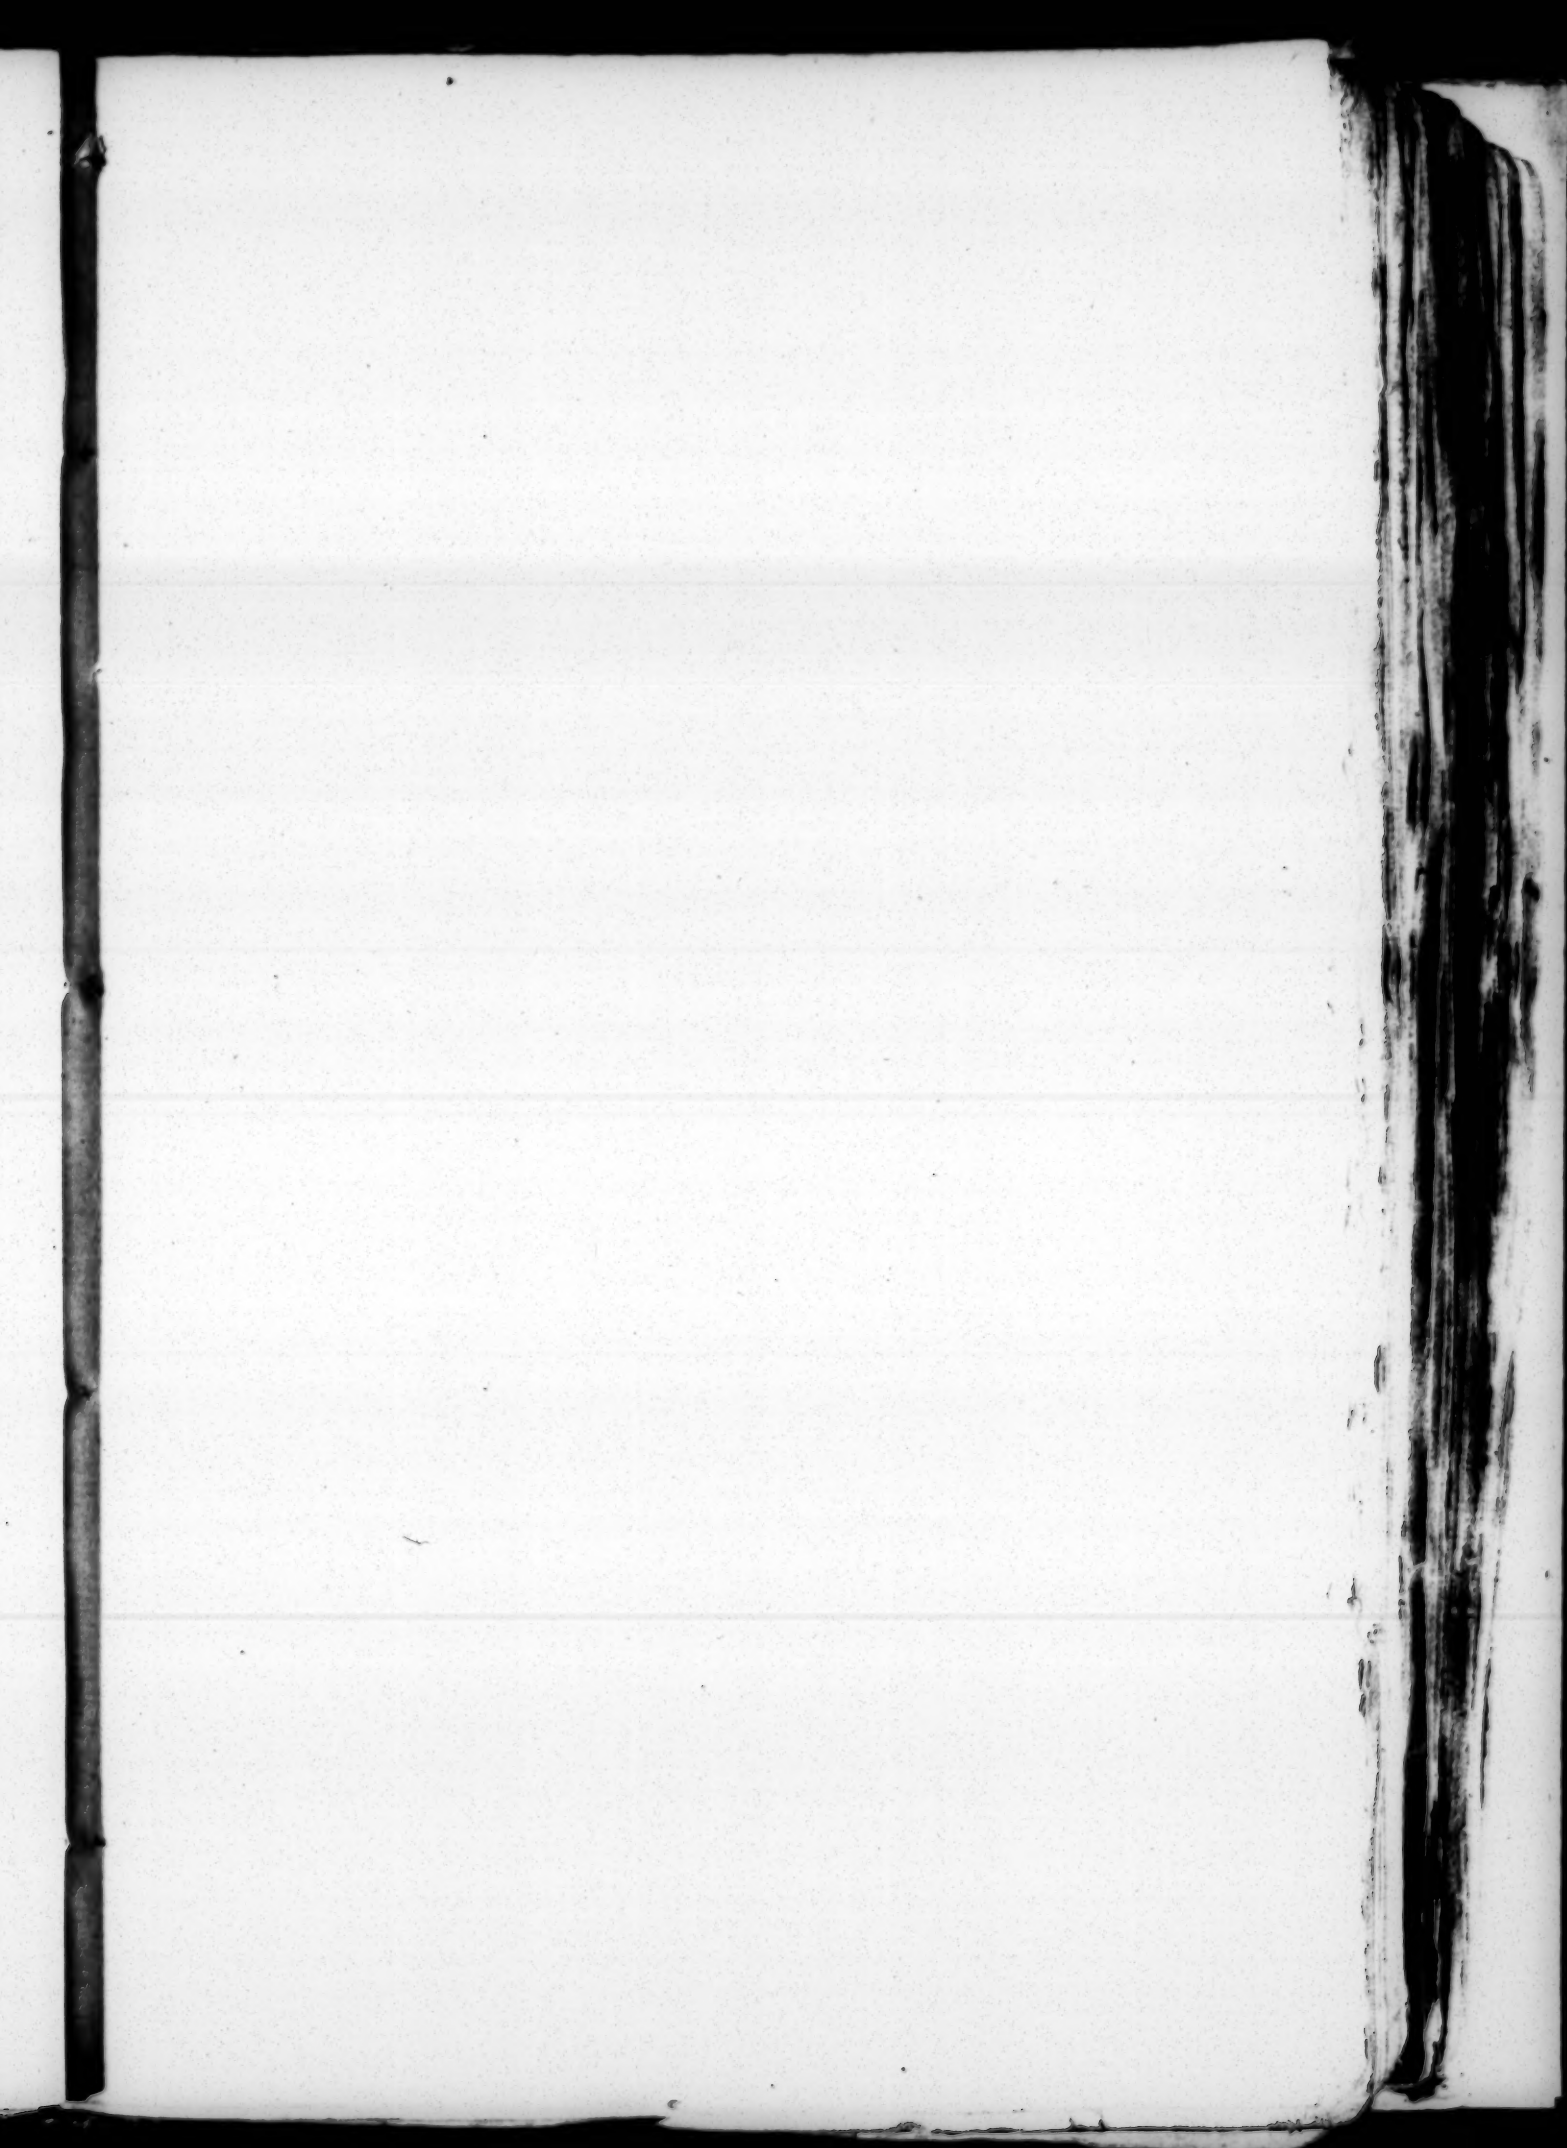

On the motion of the Hon. Mr. Annesley and Henry Howison, Esq; that Mr. Glascock do furnish his bill of costs to this corporation.

RESOLVED,

RESOLVED,

On the motion of Henry Howison, Esq; and Mr. Binns, that no money be paid on that bill, till the surveyor reports that the work is done and is in order, agreeable to contract.

The committee of the second division reported, that their supervisor reported to them a list of streets which have been paved, and of these which have not been paved, and having considered the state of their division, they unanimously agreed, that no new work nor repairs go forward till the people to whom money is due on account of the works last season are first paid.—That they think the jet-out window of Mr. Ramage in Henry-street, is not a nuisance.—And that they think the objection of Mr. H Reilly of Abbey-street, to the work done opposite his stable, &c. in the Lotts, is not well founded, being done in the best manner to accommodate him, and according to the general level of that line.

RESOLVED,

On the motion of Mr. Winstanley and Mr. Kingsbury, that the corporation do agree with the committee relative to Mr. H. Reilly.

The committee of the third division reported, that having considered the resolution of the 16th inst. they would be willing to comply by discharging their supervisor, but had not the matter before them. And that they think, as the weather is good, the streets under order to be repaired last season which were not done, should now be finished.

An affidavit made by the supervisor, and the report relative to the jet-out window in Eustace-street, being read,

RESOLVED,

On the motion of Mr. Leet and Mr. Kingsbury, that the consideration of the report of the said committee, relative to their supervisor, be postponed till this day fortnight.

A memorial of the inhabitants of the north side of Gloucester-street was presented by Sir Pat. King, setting forth, that the foot way is lower than the causeway, and that the water runs in at their vaults and doors, and lies so on the footway that the inhabitants are greatly annoyed; and praying, that the flags may be re-laid on a proper level.

RESOLVED,

On the motion of Sir Pat. King and Mr. Leet, that said memorial be considered on Friday next.

A memorial of Jane Dalton, widow, was presented by John Patrickson, Esq; setting forth

THAT her husband was elected supervisor of the said division at the first appointment of those officers, and applied himself with great diligence and attention to execute the duties of it, which required his being out in all weather, at late and early hours, and this threw him into such a state of health (that still being determined not to relax in his assiduity) at length put an end to his life; by which your petitioner is left with four children in an exceeding distressed situation; she humbly hopes, as her husband's services and integrity were several times approved by this honourable board, that your honours will please to extend your bounty to her relief, and trusts that your humanity will excuse what her urgent necessity obliges her to ask.

RESOLVED,

On the motion of John Patrickson and Thomas Kingsbury, Esqrs. that said memorial be considered on Friday next.

Sum-

Summonses, agreeable to act of parliament, to be served on the city-treasurer and the scavengers, on the complaint of Wm. A memorial of the inhabitants of Paradise-row was presented by Mr. Binns, setting forth, that last summer it was ordered that said row should come in rotation after Tucker's-row,—that some small stones were laid down, since which there has not been the smallest repair,—that on second application, they were informed the season was too far advanced, and as it is in a wretched state and scarcely passable, especially at night, without imminent danger, praying it may be repaired.

RESOLVED,

On the motion of Mr. Binns and Mr. Leet, that said memorial be considered on Friday next.

A memorial of James Nowlan was presented by Mr. M'Cready, setting forth, that his concerns in Whitefriar-street were measured, and he paid one year according to measurement,—that one house is built on part of the ground which pay taxes since 1766,—that he apprehends he is to pay paving-tax for the same, according to the valuation, and for the remainder, according to the 4th clause in the 2d act; and prays the same may be regulated accordingly.

The committee of the fourth division reported, that they agreed with John Cullen for Pebble paving-stones at 1s. and 6d. per cart.

RESOLVED,

On the motion of Mr. Winstanley and James Robinson, Esq; that the said proposal be accepted, the said Cullen having engaged to furnish them agreeable to the terms as to size, &c. agreed to with him this day for the first division.

The said committee reported, that they agreed with Michael Mahon to furnish gravel at sixpence per cart, and to deliver it at Essex or the Merchant's-quay, each cart to contain three herring-gauges.

RESOLVED,

On motion as aforesaid, that said proposal be accepted.

The said committee reported, that they agreed with Matthew Perry for new flagging, at 8½d. per foot, leaving one halfpenny in hands, and also named securities for the performance of his contract, agreeable to their advertisement; and he further proposed to re-lay old flagging at two-pence per foot.

The terms of said proposal being higher than those of other divisions, Matthew Perry was asked, if he would agree to level and prepare the ground at his own expence, and engage for the fourth division upon the same terms of Henry Lynam and Henry Hamerton, which was read to him.—He said, that
he

he would engage, and the terms were, upon the motion of Mr. Winstanley and James Robinson, Esq; acquiesced with on the part of this corporation.

The committee of the fifth division recommended, that an advertisement be published to invite paviors, to propose for repairing the streets in their division, (reported as necessary to be done by their supervisors) and for keeping the same in repair for seven years, which, they apprehend, would be a saving to the corporation.

RESOLVED,

On the motion of James Robinson, Esq; and Mr. Winstanley, that the consideration of said report be postponed.

ORDERED,

On the motion of Thomas Kingsbury and James Robinson, Esqrs. that said proposals be sent to Mr. Glascock, and that he do prepare proper contracts, &c. to be executed by the committees and the respective parties, so as to be ready to lay before this board against Friday next.

ORDERED,

On the motion of James Robinson and George Cartland, Esqrs. that the surveyor and supervisor be instructed to view the grate and fall of water, in that part of York-street where Nicholas Morrison, Esq; lives, and that they do report how best to carry off the water, so as to prevent the inhabitants being inconvenienced as at present.

RESOLVED,

That this Corporation do adjourn, and they are hereby adjourned to meet at the Tholsel on FRIDAY the 31st of MAY, at 12 of the clock.

A contract of Matthew Perry with the committee of the fourth division, which corresponded with his proposals, specifying however that he was to have no claim to any of the old materials, was read, and upon motion of James Robinson, Esq; and Sir Anthony King, was approved of and signed by seven commissioners.

The committee of the first division reported, that the additional charge of $7\frac{1}{2}$ d. per week for clearing the sewer-grates of Queen-street and Barrack-street, &c. was, because the person who had one shilling per week for it gave it up, and they could not get it done less than 1s. $7\frac{1}{2}$ d. that there were too additional grates given in charge to cleanse; that the business is necessary to prevent the streets being overflowed by the great torrents of water which pour down from Stoney-batter; otherwise, they would not go any such expence, as they have on every occasion endeavoured to save, and not to lavish the public money.

ORDERED,

On the motion of Nath. Cavenagh and Thomas Kingsbury, Esqrs. that there be a cross passage made from the foot-way of Kildare-street, in the center of Kildare-place, at an expence not exceeding £3 10.

John Giffard and Edward Cullen, with power to call in on umpire, in order that the same may be made a rule of court, was presented by Mr. Moland's agent and Mr. Glascock, and was, on the part of this corporation, signed and sealed by seven commissioners.

RESOLVED,

On the motion of Mr. Cartland and Mr. Binns, that the treasurer be informed that the order not to issue debentures till the 24th of June next, is rescinded.

Mr. Gladwell acquainted the board of the death of William Murray, receiver of the fourth division.

Dublin Gazette, that this corporation will, on Friday the 14th day of June, elect a receiver of the said division in the room of the said William Murray.

Mr. Gladwell also acquainted the board of the death of James Bardin, the receiver of the sixth and seventh divisions,—that he got the books and papers from his representatives, and made up his accounts, with which he furnished them,—that a gentleman called since upon him, and shewed him warrants on the treasurer which Mr. Bardin had advanced the money on, to a greater amount than his balance; and that there is money due to the said late Mr. Bardin on account of his office of clerk of the sixth division,—and that his representatives are ready to settle the account, and on being allowed the poundage and salary to pay the balance to the treasurer.

On the motion of Hamilton Stewart and Thomas Kingsbury, Esqrs. that Mr. Gladwell do lay the account of the late James Bardin before this corporation on Friday next.

A memorial of the inhabitants of New-street was presented by James Robinson, Esq; setting forth, that New-street, from the Poddle to the Circular-road, is hardly passable either the foot-ways or carriage-ways, particularly from Donovan's-lane upwards;—that on giving that street a temporary repair some time ago, an open was left where it is supposed it was intended to affix a grate, and ever since the water settles and overflows all that part of the street,—and that Donovan's-lane also which leads from the Liberty of Donore to New-street, is rendered impassable for want of repair and sewer-grates to carry off the water.

A petition of Thomas Jones was also presented by James Robinson, Esq; praying, that a court which is behind an house he built in High-street may be paved, as the houses in the court pay the tax,—and also that, the passage under the said house to the court, which is four feet ten inches wide, may be flagged.

RESOLVED,

On the motion of James Robinson, Esq; and Mr. Martin, that said memorial and petition may be considered on Friday next.

The committee of the first division reported, that they viewed the jet-out window at No. 19, Upper Ormond-quay,—that it does not project more than other windows,—that it is ornamental, and they do not think it a nuisance ;—that they request the levels and sections of King-street, Ann-street, Fisher's-lane, Phrapper-lane, Pill-lane, and Charles-street, may be taken, and that the surveyor do instruct the supervisor how to carry on the temporary repairs, as they wish to proceed immediately.

The committee of the second division reported the date and amount of several warrants in the hands of their clerk, amounting in the whole to £199 13, for which they request they may get debentures.

The committee of the third division reported, that they recommend their report of the 2d. instant, relative to curbing Kildare-street, Dawson-street, Pit-street, and from Nassau-street to College-green, may be complied with.

RESOLVED,

On the motion of Ambrose Smith and Nich. Morrison, Esqrs. that said report be postponed.

ORDERED,

That the licence granted to William Jones to erect a paling on Upper Ormond-quay be revoked, the supervisor having granted it while unacquainted with the act of parliament,—and that he do seize or remove the timber for sawing, and bricks laid on the quay or public street by the said Jones again Tuesday next.

The

The supervisor of the first division reported, that he called upon Mrs. Warner, of Upper Ormond-quay, agreeable to order, to repair and cope the quay-wall opposite her house, and she immediately complied therewith;—that he also served Alderman Hamilton and Messrs. Kent and Heney, of the said quay, with the like notice, and was answered, that they never would repair it;—that he gave notice to the owner of the deal-yard in Bow-street, the 20th ult. to remove his deals from overhanging the footway, and he has not complied;—that he gave notice the same day to the owner of the vacant ground in Lincoln-lane and in Phoenix-street, to fence it in, and they have not complied;—that several of the small streets are full of dirt, by people throwing out ashes and dung into them;—that most of the rubbish laid on the Inns-quay is opposite the new building, and that no work is now carrying on there;—that the boards of a deal-yard in Queen-street and Hay-market overhangs the footway, and large pieces of timber are laid in the Hay-market, and in the Stable-lane of West Arran-street, wherein there are also dunghills;—that the water-spout of St. Michan's Poor-house projects, and is a great nuisance;—that understanding there was gravel raised in the Hay-market formerly, for paving Smithfield, he opened a pit there, and between three and four feet deep he found a likelihood of getting abundance of excellent gravel and a supply of paving-stones, which he immediately began to work; that when supplied out of the pit, he proposed filling it with the rubbish at the Inns-quay; but this day, between twelve and one o'clock, a commissioner came and stopped the work, and set men to fill up the pit, on account of its being in the public street.

RESOLVED,

On the motion of Thomas Kingsbury and Nich. Morrison, Esqrs. that the consideration of said report be postponed till Friday next.

Mr. Gladwell, according to order, laid before the board an account of the late James Bardin, receiver of the sixth division, by which it appeared, that the balance due by him to the corporation, after allowing him the poundage, was £35 13 7, and deducting the salary due to him as clerk of the division, being £8 6 8, reduced the balance to £27 6 11.

RESOLVED,

On the motion of Thomas Kingsbury and Nich. Morrison, Esqrs. that the corporation do agree with the said account, and that the treasurer be instructed to receive the said balance.

Mr.

Mr. Gladwell also laid an account of the said James Bardin, receiver of the seventh division, before the corporation, by which it appeared that, after allowing the poundage, the balance in favour of this corporation is £25 16 0 $\frac{1}{4}$.

RESOLVED,

On motion as aforesaid, that the corporation do agree with the said report, and that the treasurer be instructed to receive the said balance.

The supervisor of the second division reported, that the inhabitants of Lower Ormond-quay and Batchelor's-walk refuse to pay the expence of repairing the quay-wall opposite their houses, which was done in October last with rough masonry and mountain grit;—that the whole expence is £19 5 4 $\frac{1}{2}$, and the workmen insist on his paying them.

RESOLVED,

On the motion of Thomas Kingsbury and Ambrose Smith Esqrs. that said report be referred to the divisional committee.

ORDERED,

On the motion of Nath. Cavenagh and Thomas Kingsbury, Esqrs. that the supervisor of the third division do, on Friday next, report an account of all persons summoned by him, the fines incurred thereon, how much he has received, and what fines remain to collect.

The supervisor of the third division reported, that a new main pipe was lately laid in York-street, and the inhabitants were, of course, obliged to break up the street in order to affix their small branches or pipes thereto; that he directed Cassidy to repave these breaches, and measured the work, charging each inhabitant his share;—that they refuse to pay it;—that the work is sunk, and the street is in a very bad condition, and that the contractor refuses to repair it unless he engages him payment.

ORDERED,

That the persons refusing as aforesaid, be summoned to attend on Friday next.

The said supervisor reported, that having examined the sewer-grates of York-street, he thinks them too small for the great fall of
of

of water there ;—that to prevent the present inconvenience, two large grates are necessary, and to place one of the present grates at the corner of French-street ;—that a great part of the back-water now complained of may be taken off when Mercer-street is levelled, or at present, by making a sewer from the end of Beau-lane to Mercer street, and placing the grate thereon.

ORDERED,

On the motion of Thomas Kingsbury and Nich. Morrison, Esqrs. that the said report be referred to Mr. Owen, and that he do report, against Friday next, the expence attending removing the inconvenience complained of.

A memorial of John Bennet was presented by Nich. Morrison, Esq; setting forth, that he has warrants bearing interest for account of the third division, for £226 9 6; and he prays for leave to make up the sum of £300, and to get debentures for that amount.

The town-clerk and certain of the inhabitants of Ormond-quay attended, agreeable to order, relative to the repairing of the wall of said quay, and after some time,

RESOLVED,

On the motion of Redmond Morres and Ephraim Hutchison, Esqrs. that the said enquiry be postponed till Friday next, and that the town-clerk be acquainted, that this corporation will, on that day, enquire of him upon oath, where and how often within one hundred years past the corporation of the city of Dublin repaired the quay-wall of Upper Ormond-quay,—as also, where and how often the same was done by presentment in the said time;—that Mr. Tim. Mahon be summoned to attend on said day, and that the inhabitants do also attend, with such persons as they think can give useful information on the subject to this board.

The following report of the committee appointed to view the building or projection complained of, being erecting in the street leading from the Folley to George's-quay, intended to be called Ellis's-street, was presented and read,

“ That the committee viewed and measured the same, and find that the said street is 38 feet 10 inches in breadth, as bounded by the foundation wall on the west, Mr. Worthington's holding, (part of which was then remaining) and Mr. Sandwith's flank-wall on the east, at the north end of the said street.—

That

That by lease of Mr. Sandwith's concern on George's-quay, adjoining Ellis's-street aforesaid, there is a clause in said Sandwith's lease, that said street shall be 40 feet in breadth.— Mr. Worthington, the tenant of the ground on George's quay, adjoining Ellis's-street on the west side, says, his ground contains 70 feet, (but shewed no lease or map thereof) which would reduce said street to 36 feet 8 inches. Mr. Sandwith's ground to the east contains by measurement 248 feet 3 inches, from Ellis's-street to Lloyd's rope-walk, but by the leases and map he produced the measurement of ground ascertained therein appears to be 246 feet, or thereabout. Mr. Sandwith declared, when measured to him, that it was from inside to out, breadth of flagged path at the side of Mr. Worthington's house, as pointed out to him, being 5 feet 10 inches.'

ORDERED,

On the motion of Mr. Winstanley and Ephraim Hutchison, Esqrs. that the supervisor do take care that Ellis's-street be not narrowed by any building carrying, or to be carried on there.

ORDERED,

On the motion of Major Corneille and Peter Maturine, Esq; that Mr. Owen do view the work carrying on by Wm. Blenkinsop at Stephen's-green, and report on Friday next, whether the same is doing with good and proper materials, and agreeable to the spirit of his contract.

RESOLVED,

That Travers Hartley, John Wilson, and George Cartland, Esqrs. and Mr. Winstanley, be a committee to view the rails erected by Philip Dwyer, in Stafford-street, and that they do report their opinion thereupon on Friday next.

RESOLVED,

On the motion of George Cartland and Redmond Morres, Esqrs. that the corporation do agree with the report of the surveyor and supervisor relative to Mercer-street, and that the work be done in order, by carrying off the water to remove the great nuisance complained off, and that said street be finished at an expence not exceeding £30.

RESOLVED,

On the motion of George Cartland, Esq; and Mr. Winstanley, that Messrs. Lynam and Hamerton be empowered to carry
into

into execution their contract with the third division, by being employed to finish the footway of Dawson-street, and to re-lay the old materials.

A memorial of the association of Saint Mark's parish was read, setting forth, that Poolbeg-street, from Luke-street to Moss-street, and leading to the quay, is impassable, from the great quantity of sludge and dirt laid there, on account of the street not being paved and the great dunghills between it and Lazor's-hill ;—that on account of its private situation, it is a refuge for rioters and robbers, to the great annoyance of the neighbourhood ;—that the inhabitants will pave and cleanse it, if called upon by the board ; and if they ought not to do so, praying it may be done, and that all taxes and arrears due are or shall be paid,—and praying relief.

RESOLVED,

On the motion of Michael Dally, Esq; and Major Corneille, that said memorial be considered on Friday next.

A petition of George Sheil was presented by James Robinson, Esq; praying to be allowed to erect a jet-out window to his house in Abbey-street, in the room of one which he removed at the desire of the supervisor ;—that it will not project near so far as his neighbours, and that his neighbour consented to the same.

RESOLVED,

That said memorial be considered on Friday next.

A memorial of the inhabitants of Crane-street, Rainsford-street, Bellview, and Crawley's-yard, were presented by Mr. Smith, setting forth, that they pay the tax, and that there never was one shilling expended on these streets,—that they are a great avenue between Thomas-street, Marybone-lane, and the Grand Canal, and that it is a very improving avenue, but will be impassable this winter if not repaired.
